

### DAILY CARE:

- Clean stainless sink prior to first use
- Wash sink daily using a mild detergent, rinse, and dry with a soft cloth
- Use a bottom grid or rinsing basket to protect bottom of sink
- Rinse and wipe down sink after each use

### RECOMMENDED CLEANERS:

Mild detergent (Dawn)  
Bar Keepers Friend  
Soft Scrub  
Non-scratch Scotch Brite Pad

*Read and follow all instructions and warnings of any cleaning products used.*

### DEEP CLEAN:

- Deep clean sink weekly or as needed
- Sprinkle dry baking soda on sink surface
- Use a non-abrasive sponge or soft bristled scrub brush. Scrub in the direction of the metal grain. DO NOT use a wire-bristled brush, steel wool, or any type of abrasive scrubbing pad.
- Spray sink with white vinegar and rinse. Foaming action is normal.
- Rinse with warm or hot water
- Dry sink using a soft cloth

### ADDITIONAL TIPS:

- Do not use cleaners containing ammonia, chlorides (bleach) or other harsh chemicals
- Do not use wire-bristled brushes, soap pads, steel wool or any abrasive pad
- Do not store open containers of household cleaners and chemicals containing chlorides (bleach) below the sink.
- Avoid using a dish mat in the sink
- Always rinse away residual soap after sink use
- Use a bottom grid or rinsing basket to protect bottom of sink
- Rinse and wipe down sink after each use
